PADDLING TRAIL OPPORTUNITIES

	Paddling Trail Opportunities
	Conservation Lands

Map Updated: 2/16/2018

Paddling Trail Opportunity corridors represent the vision for a comprehensive water-based trail system. To be recognized as a Paddling Trail Opportunity, the paddling corridor must meet these criteria to the greatest extent possible:

- Be an existing or potential tourism destination due to the scenic qualities and diverse experiences
- Span at least three miles in length
- Be navigable during most months in an average year
- Benefit from increased visitation without harm to the natural environment
