Executive Summary

The Brownfields Program

The Brownfields Program is a redevelopment tool for properties with environmental contamination, or the perception of environmental contamination. Initiated by the EPA in 1995 and in the State of Florida in 1997 by the Florida Brownfield Redevelopment Act, Section 376.77-376.86 of the Florida Statutes, this program provides business incentives to rehabilitate contaminated properties and return them to productive use for communities. Grants, loans and tax credits are available for site clean-up, job creation, affordable housing and health care. Redevelopment of distressed properties can increase property values and revitalize neighborhoods. The goal of the Brownfields Program is to conserve our undeveloped land resources by cleaning up and reusing developed properties in new ways to enhance the overall quality of life in the surrounding communities.

A **Brownfield Area** is defined by Section 376.79(4), Florida Statute, as “...a contiguous area of one or more Brownfield sites, some of which may not be contaminated, and which has been designated by a local government by resolution.” Local governments who have designation authority in Hillsborough County are Hillsborough County, the City of Tampa, the City of Plant City, and the City of Temple Terrace. The designation of a Brownfield Area demonstrates support by the local governments for the redevelopment plan.

A **Brownfield Site** is defined by Section 376.79(3), Florida Statute, as “...real property, the expansion, redevelopment, or reuse of which may be complicated by actual or perceived environmental contamination.” There may be one or more Brownfield sites contained within a Brownfield Area. Brownfield site owners enter into a voluntary environmental clean-up agreement with the Florida Department of Environmental Protection (FDEP) or one of the delegated County programs such as the Environmental Protection Commission of Hillsborough County. Once the clean-up agreement is signed, the site owner receives liability protection from legal claims associated with the site contamination and gains access to certain financial incentives.

EPC’s Program Role

The **Environmental Protection Commission of Hillsborough County (EPC)** is the local natural resource protection agency created by the Florida Legislature in 1967 to serve the citizens of Hillsborough County. The EPC was delegated the Brownfields program authority by the Florida Department of Environmental Protection (FDEP) in 2004. The EPC manages Brownfield sites in Hillsborough County unless the site has RCRA program involvement, an existing Consent Order with the FDEP, or if Hillsborough County is the property owner. EPC and FDEP work closely to ensure that sites needing environmental assessment are directed to the appropriate agency. The EPC’s delegation agreement was renewed in 2012 and again in 2020.

The EPC manages the site rehabilitation process through a voluntary cleanup contract with the property owner called a **Brownfield Site Rehabilitation Agreement (BSRA)**. Site Rehabilitation is

the process followed to conduct an environmental site cleanup. It begins with an environmental assessment of soils and groundwater and continues in accordance with the following Florida regulations:

- Chapter 62-780, Florida Administrative Code, Contaminated Site Cleanup Criteria
- Chapter 62-777, Florida Administrative Code, Contaminant Cleanup Target Levels

The goal of site rehabilitation is to return the soil and groundwater to clean conditions, or conditions that are protective of human health and the environment as allowed under these regulations. A **Site Rehabilitation Completion Order (SRCO)** issued by EPC is the final document closing the environmental investigation at the site and terminating the BSRA. The EPC works closely with property representatives, environmental consultants and attorneys to accomplish site closure. Site rehabilitation and closure consider future land use, allowing economy of cost to be paired with the responsible protection of human health and the environment.

In addition to the delegated duties, **EPC promotes the two goals of the Brownfields Program, environmental restoration and responsible redevelopment**, by working with the local economic development agencies and environmental professionals to increase awareness of the opportunities that the Brownfields Program can provide. This can involve meetings with interested parties and presentations to various professional groups.

The EPC continues to support local recipients of EPA Brownfield Grants. The Corporation to Develop Communities of Tampa (CDC of Tampa) is in its second year of a \$500,000 EPA job training grant. The City of Tampa is in the third year of their 2021 EPA assessment grant to renew the West River area north of downtown Tampa. EPC staff continue to provide technical expertise in contamination assessment and remediation to the local grantees.

EPC also tracks the change in property values for redeveloped EPC Brownfield sites in Hillsborough County. This is an indicator of economic growth stimulated by improvements to the property due to the Brownfields Program. A comparison of property values from the year the BSRA was signed to April 2024 is presented in the report Tables for redeveloped EPC Brownfield sites in Hillsborough County.

This report presents the Brownfields Program activities by EPC from June 1, 2023 to May 31, 2024.

2023-2024 Annual Summary

The EPC manages **49 of the 80 Brownfield sites** in Hillsborough County. Below is the breakdown of the 49 Brownfield sites managed by the EPC.

- 12 sites are in environmental assessment
- 6 sites are monitoring groundwater to evaluate for closure conditions
- 3 sites are in remediation
- 5 sites are in the closure process
- 23 sites are closed/complete
- The sites participating in the EPC's Brownfield site rehabilitation program include approximately 854 acres.

Three new **Brownfield Sites** executed a BSRA with the EPC:

- Main Street Park (Tampa, 0.23 acres)
- Tampa Bay Metals (Tampa, 3.11 acres)
- Gasworx E123 (Tampa, 4.66 acres)

Two **BSRAs were amended** to add a new property owner as a PRFBSR:

- Detsco
- International Ship

Three **SRCOs** were issued this past year:

- Former Stock Building Supply (Plant City, 5.00 acres)
- Former Gro-Mor Fertilizer (Plant City, 1.26 acres)
- South Florida Baptist/Baycare Former Chicken Farm site (Plant City, 7.03 acres)

Within Hillsborough County, there are **19 designated Brownfield Areas** without BSRAs. These areas are ready for redevelopment in the Brownfield Program, but no environmental investigations have been initiated. Most of the Brownfield Areas established after 2016 that have no Brownfield cleanup site associated with them entered the Brownfields Program to use the financial incentives to create affordable housing. This is another beneficial effect of the Brownfields Program.

The EPC Brownfield Team

Environmental Protection Commission of Hillsborough
County 3629 Queen Palm Drive
Tampa, Florida 33619-1309

2023-2024 Project Accomplishments

New Brownfield Site

Main Street Park

BSRA signed November 30, 2023

**City of Tampa, BF292202001; 0.23 acres,
2101 West Main Street, Tampa**

This small Brownfield site is an open square of land at the intersection of West Main Steet and North Albany Avenue in Tampa near the City’s West River Redevelopment Area. A Cuban cultural center (Cespedes Hall) was originally constructed on the property in 1895. The property was used next as a City Hall and then a fire station from 1925 until 1958, and recently has been used as a passive park. Soil impacts from arsenic and PAH compounds are present, and a Site Assessment Report is due this summer. The City of Tampa plans to remove impacted soil and redevelop it into a park to serve the residents of the West River Brownfield Redevelopment Area.

Below: Fire Department on Brownfield site, 1920s

Far Left: Current site condition

Left: 2010 aerial, existing park layout

New Brownfield Area & Site

Former Tampa Bay Metals

BSRA signed December 14, 2023

**Former Tampa Bay Metals, BF292302001; 3.11 acres,
4810 South 50th Street, Tampa**

This Brownfield site has been used by multiple owners for scrap metal recycling which resulted in discharges of hydraulic oil, transformer oil and other environmental impacts. The property is now used by tenants for the following businesses: shipment of scrap metal and other goods to West Africa, truck storage and salvage, and a future tire shredding operation. Redevelopment plans are to create a wood pellet fuel manufacturing and shipping business. The property is impacted with PCBs, petroleum compounds, solvents and arsenic in soils and groundwater. The site assessment is currently in progress.

Left: Trucking storage and salvage
Below Left: Site aerial view
Below: Future tire shredding area

New Brownfield Area & Site

Gasworx E123 / Gateway Brownfield Area

BSRA signed December 14, 2023

Ybor Gateway Brownfield Area, BF292301000; 24.14 acres

Gasworx E134, BF292301001; 4.66 acres

East 2nd Avenue – East 5th Avenue between Channelside Drive and North 14th Street, Tampa

This new Brownfield site has been impacted by buried solid waste over several city blocks. Redevelopment of these three blocks will create multifamily housing with a garage, mixed use commercial and industrial uses in this area that will connect the Channelside area of Tampa with Ybor City. The proposed redevelopment will be a walkable neighborhood. This 4-acre section is the first part of the larger 24-acre Brownfield Area that is planned for redevelopment.

Above Right and Right: Parcels to be redeveloped

Brownfield Site Closure

South Florida Baptist Hospital

SRCO issued January 2, 2024

**South Florida Baptist Hospital, BF292102001; 7.03 acres,
North Park Road and East Sam Allen Road, Plant City**

The South Florida Baptist hospital is expected to open Summer 2024, replacing the 70-year old Plant City hospital in another location. This Brownfield site had arsenic impacts to soil and groundwater from the previous use as a chicken farm. Chicken feed included an arsenic compound to kill internal parasites, and arsenic was excreted onto site soils and became concentrated adjacent to the coops and downhill toward a stormwater feature. Soil removal and groundwater treatment for arsenic have been conducted, and a Conditional Site Rehabilitation Completion Order was issued January 2, 2024.

Brownfield Site Closure

Former Gro-Mor Fertilizer Plant & Former Stock Building Supply sites

SRCOs issued December 21, 2023

Midtown Brownfield Area, BF291002000, 83.6 acres

**Former Gro-Mor Fertilizer Plant, BF291002002; 1.26 acres,
306 and 307 South Evers Street, Plant City**

**Former Stock Building Supply/McGinnis Lumber Yard, BF291002001, 5.00 acres
511 and 530 South Collins Street, Plant City**

There are five Brownfield sites in this Brownfield Area, and three have now closed with Conditional Site Rehabilitation Completion Orders. Groundwater impacts from the Gro-Mor fertilizer plant merged with groundwater impacts from the Stock Building Supply/McGinnis Lumber Yard. The groundwater was monitored for ammonia, cadmium, iron, manganese, nitrate and sulfate until the area of groundwater impacts was determined to be stable and shrinking. A groundwater use restriction is in place for these sites. Soils impacted by benzo(a)pyrenes and arsenic were removed from each site; these impacts were attributed to adjacent road usage. The City of Plant City is in negotiations with a developer to create residences and mixed business/commercial use. Site structures have been demolished in preparation for redevelopment.

Brownfield Sites – Construction Update

Interbay /Elan Apartments

**Interbay Redevelopment Area BF292101001; 25.96 acres,
7210 Interbay Boulevard, Tampa**

This 2021 Brownfield site property was previously used as a borrow pit in the 1960s and 1970s and later partially filled with debris, mostly concrete and asphalt from roadways. This site is also regulated by EPC under a Director’s Authorization for redevelopment of a former solid waste disposal area. The construction of the apartment buildings is partially done, and final completion of the 350 apartments is expected July 2024. Soil controls are in place and the site is working toward conditional closure for soils and groundwater.

2023 2024

Below: Vapor barrier installation

Above: Last building in construction
Below: Finished buildings and pool

Brownfield Site – Construction Update

Channel Club

**Channel Club II, BF292003001; 2 acres,
1237 Twiggs Street, Tampa**

The Channel Club II Brownfield site was previously used as a bulk petroleum distribution center, constructed over fill material. Florida’s Petroleum Restoration Program and the Advanced Cleanup Redevelopment Program were used to rehabilitate the petroleum discharges at the site. The Brownfields program is being used to address the Benzo(a)pyrene and arsenic impacts caused by the fill used at the site. The site has been assessed, soils removed, and the groundwater is now being monitored for closure conditions. Apartments will be ready in June 2024, and all construction is expected to be completed by October 2024.

Above: Installation of auger-cast pilings, Spring 2022.

Right: Construction progress Fall 2023

Brownfield Site – Construction Update

Colonnade Crosstown

**Colonnade Crosstown LLC, BF292002001; 158 acres,
US 301 and Causeway Boulevard, Tampa**

This large Brownfield site was formerly the Star Dairy operation, and there are arsenic impacts to soil and groundwater from a former cattle dip vat. Impacted site soils have been removed, and the site is nearing construction completion of a secure production/distribution warehouse, fleet operations, supporting stormwater and other infrastructure needs for Coca-Cola Beverages, Florida. Groundwater impacts are being monitored for closure conditions. Coca-Cola Beverages will be moving into the new facility September 2024.

Above: Tilt-up walls May 2023
Left: Current construction progress April 2024

Brownfield Site – Construction Update

Independence Park

Independence Park, BF292103001, 45.5 acres
4110 George Road, Tampa

The Independence Park Brownfield site was previously part of the City of Tampa’s Rocky Point Golf Course. Environmental site rehabilitation is addressing arsenic and pesticide contamination of soils and groundwater that originate on the Brownfield site. Construction is nearing completion for new apartment buildings for the CC Independence Park parcel of 9.3 acres, and is anticipated to be completed Summer 2024. Soil controls are present on this parcel, and municipal water is used at the site. Site rehabilitation for the entire Brownfield site is ongoing.

Left: Construction progress May 2023
Below: Construction progress September 2023

CC Independence Park parcel in BLUE; Brownfield site includes RED and BLUE

Brownfield Area – Construction Complete

Hanna Avenue

**Hanna Avenue, BF291502001, 11.2 acres
2515 East Hanna Avenue, Tampa**

This site was previously used for manufacturing, resulting in metals, solvents and petroleum compounds in the soils, and solvents in the groundwater. Impacted soils were removed from the site. In-situ anaerobic bioremediation of solvents in groundwater was conducted in 2018, which greatly reduced the solvent concentrations. The site has been redeveloped to house various City of Tampa departments, including fleet maintenance. Post-Active Remediation Monitoring (PARM) has begun to evaluate groundwater for closure conditions.

Construction progress May 2023 and completed Spring 2024

EPA Brownfield Job Training Grant

Environmental Workforce Development and Job Training Grant

Corporation to Develop Communities of Tampa

In February 2023, the Corporation to Develop Communities of Tampa was awarded a \$500,000 Job Training grant. Training of the second cohort is underway for students from the East Tampa area. The goal is to train adults who may be unemployed, underemployed or have involvement with the justice system and place them in environmental jobs. The environmental and safety trainings include the following:

- 40-hour OSHA safety
- 10-hour OSHA Construction, Hazard Communication
- Confined Space
- Excavation/Trenching & Soil Mechanics
- Respiratory Protection
- Asbestos

Right: First Cohort graduation

Left: Second Cohort OSHA training by Sustainable Workplace Alliance

Continuing EPA Brownfield Grant

Brownfield Multipurpose and Assessment Grant

City of Tampa, West River Community Redevelopment Area

The City of Tampa is in their last year of a 3-year \$300,000 EPA Brownfield Multipurpose and Assessment grant, awarded in 2021. The City has completed 14 Phase 1 Environmental Site Assessments (ESA) and two Phase 2 ESAs. Currently, they are preparing a proposal for removal of an unknown underground storage tank located at a former convenience store in the East Tampa CRA. The grant work has assisted the local community; working with the CDC of Tampa, the University Area CDC and the East Tampa CRA to identify and evaluate environmental conditions in the City and the areas served by these community organizations.

Location of former convenience store with filled UST to be removed using EPA grant, East Tampa CRA

Gulf Coast Metals	2013	7/14/1905	\$3,749,100	Materials Recycling Facility
Tampa Airport Logistics*	2021	not yet issued	\$52,606,000	Warehouse
Hanna Ave	2016	not yet issued	\$49,256,019	City offices
Total Apparent Property Value Change:			\$624,912,466	

*The Tampa Airport Logistics site property value is based on the recent sales price of \$55,615,000 December 2023.

Property value change indicates the increase or decrease (red) in property value as reported by the Hillsborough County Property Appraiser from the start of the Brownfield project to the present day. This table does not account for various tax and economic development incentives that may have been used. Three sites have completed redevelopment in 2023: Gulf Coast Metals, Tampa Airport Logistics and Hanna Avenue Brownfield sites. The property value for all redeveloped EPC Brownfields sites has increased **\$118,925,242** since June 2023.

2024 Report Conclusions

The EPC of Hillsborough County added three new Brownfield sites, two Brownfield Areas, and issued three Site Rehabilitation Completion Orders in the June 2023 – May 2024 report period. Construction is active, especially in and around downtown Tampa, where land use is changing from former industrial land uses to residential with mixed land uses. The liability protection and financial incentives of the Brownfields Program are facilitating this transition.

The EPC Brownfields Program continues to grow. Two properties have recently proposed BSRAs for housing, and EPC has met with other potential sites to discuss the benefits of the Brownfields Program.

The EPC supports the CDC of Tampa and the City of Tampa with their ongoing EPA grants.

This year, EPC has promoted the Brownfields Program through presentations about EPC's and Florida's Brownfields Program at the Florida Brownfields Association's (FBA) June 2023 conference, to the Tampa Bay Area Environmental Professionals luncheon, the Florida Association of Environmental Professionals conference, the USF Brownfield Summit, and will be presenting again at the FBA's June 2024 conference. EPC is an active member of the FBA, and serves on the Legislative and Technical Committee.

The EPC of Hillsborough County continues its delegated responsibilities and has furnished a copy of this Annual Report to the FDEP.
