DEPARTMENT OF ENVIRONMENTAL PROTECTION

Division of Air Resource Management

RULE NO.: RULE TITLE:

62-210.700 Excess Emissions

PURPOSE AND EFFECT: The purpose of the proposed rule (OGC No. 18-0030) is to amend Rule 62-210.700, F.A.C. The revision will revise the sunset date in subsection 62-210.700(6), F.A.C., relating to excess emissions. A Notice of Rule Development for Rule 62-210.700, F.A.C., was published on October 27, 2017, under OGC No. 17-0890. That rulemaking package has been divided into two rulemaking packages to ensure that Rule 62-210.700, F.A.C., is completed before the sunset date. The other five rule sections under OGC No. 17-0890 will be completed in a separate Notice of Proposed Rule. **SUMMARY:** The proposed rule will address Excess Emissions policy.

OTHER RULES INCORPORATING RULE 62-210.700, F.A.C: 62-110.107, 62-212.720, 62-213.440, 62-296.401, 62-296.404, 62-296.570, 62-296.702, 62-297.310, F.A.C.

EFFECT ON THOSE OTHER RULES: There will be no effect on other rules.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COST: The agency has determined that amendments of this rule will not have an adverse impact on small business or likely increase regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A statement of estimated regulatory costs (SERC) has not been prepared by the agency. The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs, or, if no SERC is required, the information expressly relied upon and described herein: The Department has determined that the amendments to this rule will not increase regulatory costs for any entity because it merely delays the sunset date by 18 months. Any person who wishes to provide a proposal for a lower cost regulatory alternative, must do so in writing within 21 days of this notice.
