**Marjory Stoneman Douglas House
Public Meeting
Tuesday, March 13, 2018**

Purpose

An opportunity for the public to provide input on future management of Marjory Stoneman Douglas House.

Background

Marjory Stoneman Douglas was a writer, journalist and true champion of Florida's environment. Her most influential work was the book *The Everglades: River of Grass* which was published in 1947. She championed the cause of Everglades restoration until her death in 1998 at the age of 108. Marjory Stoneman Douglas built a house in Coconut Grove in 1926. It was in this house that she produced most of her literary works and engaged in her efforts to protect Florida's Everglades. The house has been maintained by the Florida Park Service since 2007 and was designated a National Historic Landmark in 2015.
