Dear Governor DeSantis, President Passidomo, Speaker Renner, Senator Book and Representative Driskell:

Pursuant to section 380.512, Florida Statutes, I am pleased to submit the Florida Communities Trust (FCT) 2023-24 Annual Report. FCT distributes Florida Forever funding through competitive grants awarded to assist local governments and eligible nonprofit organizations in acquiring community-based parks, open space, greenways and working waterfronts.

If you have questions regarding this report, please feel free to contact me or Mara Gambineri, Deputy Secretary for Land and Recreation, at 850-245-2043.

Sincerely,

A handwritten signature in black ink, appearing to read "Anna DeCerchio".

OVERVIEW

The Florida Communities Trust (FCT), created by Chapter 380, Florida Statutes (F.S.), is a state-funded land acquisition program within the Florida Department of Environmental Protection's (DEP) Division of State Lands.

FCT assists communities in protecting natural resources, providing recreational opportunities and preserving Florida's traditional working waterfronts through the Parks and Open Space and the Stan Mayfield Working Waterfronts grant programs. Through a competitive application process, these programs provide funding to local governments and eligible nonprofit organizations to acquire land for parks, open space, greenways, and projects supporting Florida's seafood harvesting and aquaculture industries.

FCT is governed by a five-member board with the DEP Secretary or their designee serving as chair. Also serving are four members of the public appointed by the Governor, which include a former elected official of a metropolitan municipal government; a former elected official of a county government; a representative of a nonprofit organization that has among its principal goals the conservation of natural resources or protection of the environment; and a representative of the development industry.

PARKS AND OPEN SPACE PROGRAM

FCT's Parks and Open Space Program assists communities in meeting the challenges of growth, supporting viable community development, and protecting natural resources and open space.

This program requires local governments to provide a minimum 25% match, except for small local governments. FCT awards 100% grants to small local governments, which are defined as municipalities with a population of less than 10,000 and counties with a population of less than 75,000.

Projects funded under this program provide land for recreational opportunities to enhance the health and well-being of Florida residents. The majority of FCT's projects meet one or more of the following objectives to implement local government comprehensive plans:

- Provide conservation lands.
- Provide urban open spaces.
- Provide public parks.
- Provide greenways.

After a project has been acquired by the grant recipient, FCT stewardship continues in perpetuity through a formal agreement to provide guidance on park development and management oversight. This is accomplished through annual stewardship reporting and site visits.

During this reporting year, FCT staff reviewed 17 project applications for funding under the Parks and Open Space Program. Utilizing Fiscal Year 2023-24 funding, 12 projects were recommended for funding approval. Once completed, these 12 projects will provide more than 632 acres for conservation and outdoor recreation.

In addition, two projects closed during Fiscal Year 2023-24:

- Gladys E. Douglas Preserve was awarded \$2,400,000 for the preservation of 44 acres by the city of Dunedin and Pinellas County. The project site will protect two significant habitat types (Rosemary Bald and Sand Pine Scrub) and provide passive and resource-based recreational opportunities within the urban service area.
- Jumping Gully Preserve Phase II was awarded \$1,028,665 for the preservation of 318 acres in Pasco County. The project will provide resource-based recreational opportunities and preserve habitat for rare species within a strategic habitat conservation area and the North Pasco to Crossbar Ecological Corridor.

During Fiscal Year 2023-24, one project was terminated:

- Quay Bayside Acquisition, submitted by the city of Marathon, was awarded funding in 2023 using remaining funds from the 2019 cycle. This project was terminated, and funding will be made available for the 2023-24 projects.

STAN MAYFIELD WORKING WATERFRONTS PROGRAM

The preservation of Florida's rich history in the traditional seafood harvesting and aquaculture industry was the inspiration behind the creation of FCT's Stan Mayfield Working Waterfronts Program.

This program provides grant funding for the acquisition of land for the restoration and preservation of working waterfronts that directly support the commercial harvest of marine organisms. While this program does not require a match, it does award extra points to an application if a 25% or more match is provided.

Funding may also be used to acquire land for exhibitions, demonstrations, educational venues, civic events, and other purposes that promote the economic, cultural and historic heritage of Florida's traditional working waterfronts. To date, the program has invested nearly \$7 million to restore more than eight acres of traditional working waterfronts.

During Fiscal Year 2023-24, two grant applications were received for the Stan Mayfield Working Waterfronts Program. One application, Preserving Cedar Key's Working Waterfront, was approved by the FCT Governing Board and the Board of Trustees of the Internal Improvement Trust Fund. Located in Levy County within the city of Cedar Key, the one-acre site will be used to provide infrastructure support to the commercial fisheries industry. The project site within a Rural Area of Economic Concern and within the locally designated Community Redevelopment Area. Cedar Key was awarded \$592,200 to purchase the site. The other application submitted during Fiscal Year 2023-24 was deemed ineligible.
