

10th Annual Southeast Florida Coral Reef Cleanup

Help keep Florida's Coral Reef healthy and beautiful by participating in a reef cleanup happening across Southeast Florida this summer. There are two ways to participate:

- Join one of the participating dive charter companies for an underwater reef cleanup and receive cool giveaways as a thank you.
- Hold a do-it-yourself cleanup by downloading the Ocean Conservancy's Clean Swell app. Head out to your favorite beach, waterway or reef and keep track of material collected and report it under the Southeast Florida reef cleanup group.

Download the Clean Swell app

This annual cleanup is hosted by the Florida Department of Environmental Protection's Coral Reef Conservation Program and the Southeast Florida Coral Reef Initiative.
