Subject: Guidance on the Maximum Processing Fees for Air Permits

The purpose of this Memorandum is to provide guidance on the maximum amount of construction permit fees that can be collected when processing an air permit application.

In accordance with the Florida Statutes, the maximum processing fee may not exceed \$7500 for an air construction permit (403.087(6)(a)5.a., Fla. Stat.), and may not exceed \$4000 for a non-Title V air operation permit (403.087(6)(a)7.c., Fla. Stat.).

Section 62-4.050(4)(a), F.A.C. specifies the processing fees for air permits. Although more than one processing fee could apply to a project, the total processing fee for a project application addressed in a single construction or air operation permit may not exceed the maximum processing fees specified above by statute, regardless of the number of emissions units or pollutants addressed.

If you have any questions, please contact the Environmental Administrator of the Permitting Section in the Office of Permitting and Compliance, at 850-717-9075.
