## Diesel Emissions Reduction Act Port Drayage Truck Replacement Application Worksheet

### Project Applicability:

This grant application worksheet is available for owners of port drayage trucks who wish to apply for partial reimbursement of vehicle replacement costs. This funding will be available for owners to replace their eligible diesel-powered, model year 1996-2009 Class-8 drayage trucks with new diesel-powered drayage trucks. A drayage truck is a Class-8 truck which hauls cargo to and from ports and intermodal rail yards for the purpose of loading, unloading or transporting cargo, such as containerized, bulk or break-bulk goods. All eligibility requirements may be found in the U.S. Environmental Protection Agency's (EPA) Diesel Emissions Reduction Act (DERA) [grant program guide](#). An excerpt table from the program guide showing current unit and replacement unit eligibility is shown below:

### Drayage Truck Replacement Eligibility (Highlighted in yellow)

Current Engine Model Year (EMY)	Vehicle or Engine Replacement: EMY 2013+	Vehicle or Engine Replacement: EMY 2016+ Zero Emission or Low-NO <sub>x</sub>
1996 – 2006	Yes	Yes
2007 – 2009	Yes	Yes
2010 – Newer	No	Yes

### Project Description:

The Department of Environmental Protection (Department) is making this round of DERA funding available to owners who wish to replace their eligible diesel-powered, model year 1996-2009 drayage trucks with new diesel-powered drayage trucks. The Department will reimburse the owner up to 50 percent of the cost of each new drayage truck.

As a condition of participating in this DERA project, the owner of the replaced drayage truck must provide, to the Department, evidence that the owner has scrapped or permanently disabled the replaced drayage truck within thirty (30) days of receipt of the new unit, pursuant to the DERA program guide.

Any owner of an eligible drayage truck(s) that submits this worksheet and enters into a grant agreement with the Department must complete the scope of work and submit all invoices and support materials to the Department within strict state budget and federal funding parameters.

The Department intends to make DERA funds available to eligible applicants who submit this worksheet by Tuesday, February 18, 2020. Awards are subject to availability of funds as allocated under EPA’s DERA program and state budget authority. Priority will be given to projects that provide high emissions benefits, can be completed in a timely manner, and will encumber significant amounts of available funding. If the number of eligible projects submitted exceeds the available funding for this notice, the Department reserves the right to partner with applicants in the future. The Department reserves the right to reject any and all bids or accept minor irregularities in the best interest of the State of Florida.

Once the Department has identified project partners for this round, the Department will prepare grant agreements specific to each project partner. Each grant agreement will include a detailed scope of work, timeline, and reimbursement schedule. All interested parties must complete and send this application worksheet to [VWMitigation@FloridaDEP.gov](mailto:VWMitigation@FloridaDEP.gov).

<b>Applicant Information – Drayage Truck Replacement Project</b>			
1) Applicant’s name:			
2) Authorized corporate officer or partner’s name:			
3) Street address:		4) City:	
5) State:	6) Zip:	7) County:	
8) Mailing address if different than above:		9) City:	
10) State:	11) Zip:	12) County:	
13) Email address:		14) Contact phone:	
15) Can the project be completed and invoiced by <b>September 30, 2020</b> ? Yes or No			
16) The unit(s) to be replaced have a remaining useful life of at least three (3) years (this is a requirement under the DERA guidelines): Yes or No			
17) Please complete the following table requesting drayage truck specific information:			
	Horsepower	Engine Model Year	Estimated Total Cost to Replace
1			
2			
3			
4			
		Total Cost:	

Note: Please reference the DERA Grant Program Guide to determine if your drayage truck is eligible to be replaced.

If you are an owner of a port drayage truck(s) and are unable to complete this project within the time specified, please provide the following information for possible future funding:

	Horsepower	Engine Model Year	Estimated Total Cost to Replace	Earliest Date Able to Begin a Replacement Project
