

Florida Communities Trust
2022 Post-Completion Workshop Webinar
Questions and Answers

Question	Answer
If the grantee asks to modify the Grant agreement and or MP and the changes do not meet the Points requirement, what then?	If the request to remove a facility would drop a project “out of the funding” for the year of their specific application cycle, then the request will be denied. However, in these instances, FCT strives to work with our project partners and we typically ask facilities to be replaced with similar facilities if at all possible, so no point loss occurs.
Just a comment: there are lots of delicate, little details to this program. Thank you for doing a good job at separating the details and explaining them all. It's a hard mass of work to convey to an audience!	Thank you for the kind comment!
Would a new fence or fire line on the property border be considered a linear facility?	Generally speaking, a new fence or fire line occurring within the boundary of an FCT project would not be considered a linear facility, however, we always suggest you reach out to your respective FCT planner regarding specific requests that are not included in a project’s Management Plan or DDRC.
Hello! Will the slide deck be made available to us?	Yes, the slideshow (in PDF format) will be available on our website after the conclusion of the webinar.
I'm on DEP's website - can you direct me to the download please?	A copy of the slideshow, a recording of the webinar, and this Q&A document can be found on the Parks and Open Space Florida Forever Grant Program tab under the Land and Recreation Grants Program section of the FDEP website.
Hi, I missed almost the entire webinar because I was on another FDEP meeting this morning. Did you say this was recorded and will be made available to us?	Yes, this recording will be posted to our website after its conclusion.
Linda, Bill and Team - Thank you for this presentation. Very helpful!	Thank you for the kind comment!
