Costs of planning and site preparation should be included within the cost of each element. If acquisition project and land value is used as match, it should be included under primary cost. If this is a trail project, list the uses or types of trails. If developing one trail for multi-purposes state multi-purpose trail, but if doing several different trails list separately with each use (example: walking trail or bike trail).

No enclosed structures are eligible except restrooms, bathhouses or restroom/concession stands. Other support examples are: parking, landscaping, and security lighting. Amenities such as benches, or bike racks will receive no points when being scored. The enclosed structures listed above cannot be phased and must be completed with one grant.

The site plan must correlate with the project boundary map and work plan elements. The site plan must **CLEARLY DELINEATE** using color codes between facilities/opportunities currently existing, facilities proposed for funding in this application and facilities planned for future development. If project is an acquisition project, be sure to submit on the site plan the proposed elements to be developed. Also identify different FRDAP phases on the site plan and any LWCF phases.
