Re: Air Program Submittal: Proposed Revision to Florida's Pending 111(d) State Plan for Commercial and Industrial Solid Waste Incinerators

Dear Ms. Walker,

In accordance with the requirements of 40 CFR Part 60, Subpart B, and on behalf of the Secretary of the Florida Department of Environmental Protection (Department), the Department is submitting a proposed revision to Florida's pending 111(d) State Plan for Commercial and Industrial Solid Waste Incinerator (CISWI) units that was originally submitted to EPA on February 6, 2014 and was subsequently amended on May 31, 2017.

This second revision to Florida's 111(d) State Plan February 6, 2014 submittal proposes to revise the previous submittals to provide for an equivalent production-based particulate matter emission limit for units in the waste-burning kiln subcategory.

The notice of opportunity to submit comments and request a public hearing was published on May 27, 2020, in the Florida Administrative Register. Pursuant to 60.23(g), the Department used alternative public participation procedures that EPA has approved for the submittal of the pre-hearing State Plan submittal. These approved alternative public participation requirements allowed the Department to cancel the July 8, 2020 public hearing if no hearing was requested by June 26, 2020. No hearing was requested by June 26, 2020 and, therefore, no hearing was held.

The Department has sent the complete SIP submittal package directly to the Air Analysis and Support Branch via EPA's State Planning Electronic Collaboration System (SPeCS).

Ms. Mary Walker
