

CITY OF ST. PETERSBURG INFRASTRUCTURE

(July 2016)

<u>General Infrastructure:</u>		
Water Population served (functional)	357,168	
Wastewater Population served (functional)	318,013	
City limits (square miles)	60	
Service area (square miles)	144	
Water accounts	92,630	
Sewer accounts	81,757	
Stormwater accounts	81,525	
Reclaimed water accounts	11,022	
<u>Water Supply:</u>		
Miles of water mains	1,543	
# of hydrants	6,481	
# of valves	32,060	
# of repumping stations	2	*1
# of booster stations	2	*2
Cosme Water Treatment Plant Capacity	68 mgd	
Storage Tank Capacity		
Oberly	24 mg	
Washington Terrace	15.25 mg	
<u>Reclaimed Water:</u>		
Miles of reclaimed water mains	287	
# of hydrants	312	
# of valves	4,367	
<u>Sanitary Sewer:</u>		
Miles of sanitary sewer gravity mains	888.09	
Miles of sanitary force mains	49.41	
# of laterals	97,941	
# of public manholes	19,379	
# of private manholes	461	
# of City-owned Lift Stations	81	*3
Treatment Plant Capacities:		
Northeast	16 MGD	
Northwest	20 MGD	
Southwest	20 MGD	
<u>Stormwater:</u>		
Miles of stormwater/drainage mains	585.3	
# of catch basins	14,533	
# of grate inlets	4,759	
# of manholes	6,156	
# of junction boxes	811	
# of stormwater end points	4,511	
# of pumping stations	4	*4

- *1 1) Oberly Pumping Station
2) Washington Terrace Pumping Station
- *2 1) Gulf-to-Bay Booster Station
2) McMullen Booth Booster Station
- *3 1) 81 City-owned Lift Stations
2) 41 private Lift Stations

- *4 1) 38th Avenue Underpass
2) Emerald Lake
3) Riverside Drive
4) Macoma Drive
