- Proposals
- Trailheads
- City-Managed Trailhead
- Bridges
- Florida State Parks

- 1 Alachua Sink Hammock - Prevent unauthorized biking use on the ranger-guided hiking trail.
- 2 Prairie Creek - Prevent fishing off of the bridge.
- 3 Trail-wide - Resurface the entire trail. Structurally assess and repair bridges as necessary. Consult with the Florida Department of Transportation to improve cyclists' safety.
- 4 Lochloosa Trailhead - Removing this trailhead should be considered. If retaining the trailhead, signs should be installed along State Road 20 directing visitors to trailhead. Provide interpretation.
- 5 Hawthorne Trailhead - Install a permanent restroom.

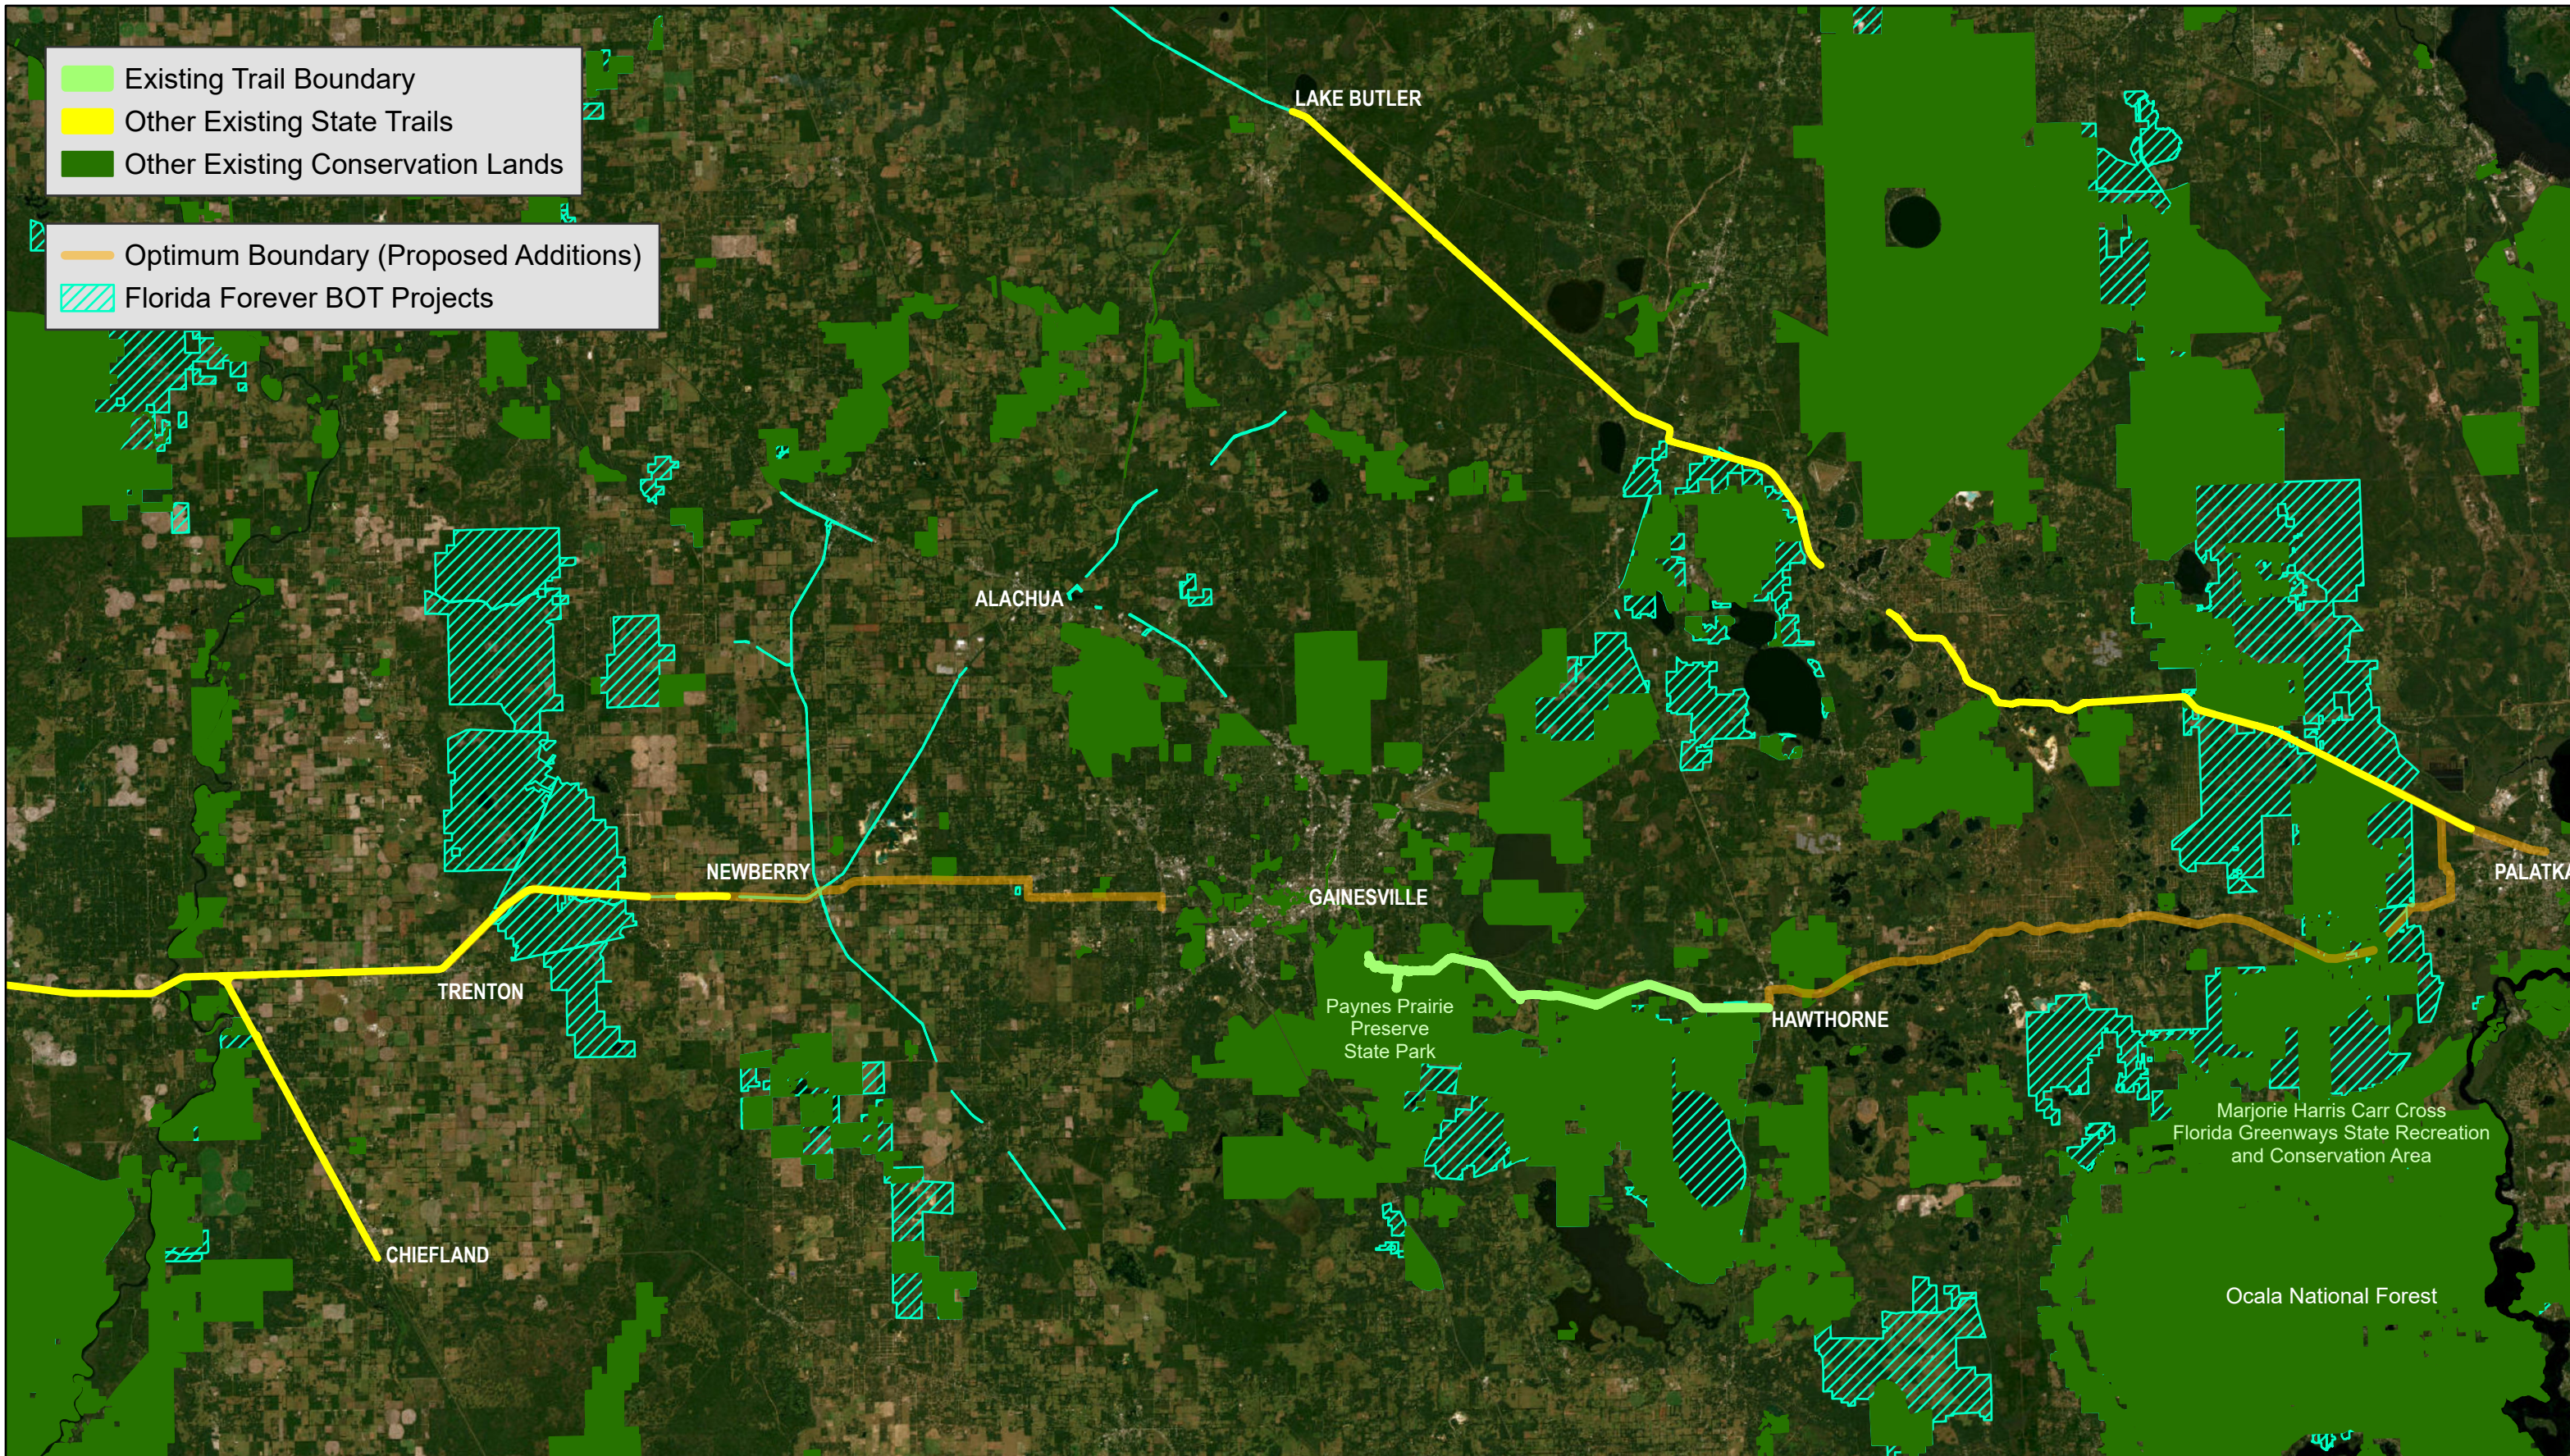

Gainesville-to-Hawthorne State Trail

Conceptual Land Use Plan

- Existing Trail Boundary
- Other Existing State Trails
- Other Existing Conservation Lands
- Optimum Boundary (Proposed Additions)
- Florida Forever BOT Projects
