ONLINE SURVEY RESULTS HORN SPRING PRELIMINARY PUBLIC WORKSHOP 2017

Response ID	Date Submitted	Camping:What recreational activities would you like to see developed within Horn Springs? Please choose your top 3	Swimming:What recreational activities would you like to see developed within Horn Springs? Please choose your top 3	Fishing:What recreational activities would you like to see developed within Horn Springs? Please choose your top 3	Paddling:What recreational activities would you like to see developed within Horn Springs? Please choose your top 3	Hiking:What recreational activities would you like to see developed within Horn Springs? Please choose your top 3	Bicycling:What recreational activities would you like to see developed within Horn Springs? Please choose your top 3	Wildlife Viewing / Nature Study:What recreational activities would you like to see developed within Horn Springs? Please choose your top 3	Other - Write In:What recreational activities would you like to see developed within Horn Springs? Please choose your top 3	Other - Write In:What recreational activities would you like to see developed within Horn Springs? Please choose your top 3	In your opinion, what is the most important issue to consider in the future management of Horn Springs? Please choose your top priority.	Please include any other comments or suggestions:
1	9/27/2017 10:54	Camping	Swimming			Hiking					Public Recreational Access	
2	9/27/2017 21:25				Paddling	Hiking		Wildlife Viewing / Nature Study			Water Quality and Springs Protection	Would love to see access for kayaks, canoes and some cultural/natural resources interpretation at the access points.
3	9/28/2017 6:16			Fishing	Paddling	Hiking	Bicycling	Wildlife Viewing / Nature Study			Water Quality and Springs Protection	I would like to see a continuous trail for hiking between the trailhead along Tram Road, south to Natural Bridge. I think a lot of folks like to do a one-way hike (or bike or paddle), such that they can arrange to have a friend, family or whomever pick them up "at the other end" - I think Tram to/from Natural Bridge would be a good opportunity/length. Thanks!
4	9/28/2017 10:14				Paddling	Hiking	Bicycling				Public Recreational Access	Recreational users would like reasonable access to Horn Springs to launch kayaks or canoes. The access road would need to be improved, but not necessarily paved. A hiking/biking trail to the springs would also be desired and these could be used for a shuttle alternative. Protection of archeological resources would also be important and any access to the springs should be closed at sundown. Some minimal periodic clearing of the river below Horn Springs would be necessary to cut openings in snags for kayaks and canoes.
5	9/29/2017 9:36						Bicycling		Other - Write In	geocaching	Water Quality and Springs Protection	I would prefer to keep it natural. At least while it is recovering. Which could take many many years before it could be a recreational spot again.
6	9/29/2017 9:38							Wildlife Viewing / Nature Study			Wildlife Habitat and Threatened Species Protection	I'd like to see this more preserved and protected than used for recreation.
7	10/3/2017 10:36		Swimming		Paddling	Hiking					Water Quality and Springs Protection	I would like to see it as a passive use park for hiking, swimming and paddling. Keeping airboats and loud motors banned. Thank you for the opportunity to give you input.
