COs for PO Modification

Site Manager should review the following information in their MFMP PO version change (Change Order) for quality assurance:

On Behalf Of:

- A Site Manager update requires the PR Creator to change the current name under “On Behalf of” to another Site Manager name. Does this PR have the correct SM name?

Shipping – Entire Requisition (below the PR Line Item(s) Section)

- Does the “Deliver To” match the “On Behalf Of” (Site Manager) named at the top of the PR?

Comments: All Version changes to the PO (zero cost/increase/decrease) should result in a CO # Comment by

the person initiating the change. If you receive a Version change and do not see any information indicating the reason why you have a new Version, please contact the person who initiated the Version change, which may be located under the most recent Version's history tab.

- Review the Comment.
 - Did the PR Creator type in the correct Change Order number?
 - If the CO contained a cost change or shift of costs from one task to another, did the PR Creator enter the correct cost, and does it match the total cost in the Line Item section and the revised Attachment B? [Note: The revised attachment will be labeled as Attachment B (Revision #)].
 - If the CO contained a due date extension or a Period of Service (PO) End Date extension, did the PR Creator enter the correct dates?

Attachments:

- 1. Attachment B (Revision #) - Schedule of Pay Items & Other Related Documents - FDEP Facility ID#**
 - Open this document to ensure the document is the one you submitted to your PR Creator. If there is no cost associated with the CO, no changes should have been made to this document.
 - On the Invoice Rate Sheet tab, check the total listed at the bottom next to FDEP Cost Share matches the total in the MFMP PR.
 - If the CO was issued to move costs from one Task to another, verify that this change is reflected.
- 2. PO # - CO #, Task # – FDEP Facility name**
 - This document should contain the fully approved RFC form and all supporting documentation including quotes.
 - All reimbursable line items require their respective backup documentation included within the CO document.
 - Quotes must contain sufficient detail so there is no question as to what is being purchased.
 - The only exceptions to the quote attachment rule are:
 - Permit Fees (documentation is not necessary as they are handled by governmental agencies).
 - Utilities and Franchised services

Approval/Denial:

- If no problems are found during the review, APPROVE PR. A comment is required (if this is a cost RFC) regarding the site priority score, discharge eligibility program, CAP amount and the amount remaining in the CAP to verify that the new PO amount is below the current remaining funds. Note that remaining funds may have changed from the initial PO issuance if final invoicing was processed on other POs. See Example Language above (page 3) under NEW POs - Approval/Denial:. Additional comment information is recommended if an explanation or clarification would be helpful for others reviewing.
- If a problem or error is found during the review, DENY PR and document the issue in the comment box and contact the PR Creator so he or she may work with you to correct any issue(s) and resubmit the PR.
- If you have additional information you would like to pass along to a Contract Manager or a Gatekeeper, that is not included in the Version's respective documents, please leave a comment upon your approval.
 - For example: "Expedited Field Request for Change (FRFC) reflects an onsite emergency and only a single quote was obtained due to the circumstances." DEP will review the documentation, and if able, approve the FRFC. However, that DEP approval is no guarantee of a MFMP approval of the same document, which could result in a Settlement Agreement. The FRFC travels through MFMP and reaches the Gatekeeper for approval. If there is only

one quote and no clarification as to why an exception is being requested for this CO, it will be automatically denied due to lack of quote documentation (as stipulated in the ATC's Contract) and clarification by the Site Manager.
