

Dry Cleaners

Air and Hazardous Waste Compliance Guide

Air Permit to do list:

- Conduct weekly leak checks (with leak detector) on machine components and waste storage areas.
- Record the amount of Perc purchased for the month.
- Determine 12-month rolling total of Perc for the month.
- Check temperature on reffridgerated condenser every week.
- Make sure waste containers are labeled and tightly covered.
- Record dates of parts ordered, received and repaired (if necessary).
- Record all items in the Air Compliance Calendar.
- Renew Air General Permit 30 days before _____
- Electronic application at DEP business Portal: <http://www.fldeportal.com/go/>

Recordkeeping requirements:

- All Perc purchase receipts, waste manifests and recordkeeping documents (Air Compliance Calendar) must be kept on-site for a minimum of 5 years and be available for inspection at all times.
- A startup, shutdown and malfunction plan and/or a copy of the operating manuals for each dry-cleaning system and emission control device must be kept at the facility.

Hazardous Waste requirements:

↓ Perc Sludge should be stored in a closed container, located within secondary containment.

↓ Spotting Chemicals should be stored within secondary containment.

↓ The floor around the **Dry Cleaning Machine** and **Spotting Board** should be sealed with an impervious sealant.

↓ **Filters and Lint** should be stored in closed containers, located within secondary containment.
