

BE A GREEN GUEST

Dear guest,
Every day, millions
of gallons of water
are used to wash
towels that have only
been used once.

IT'S YOUR CHOICE:

A towel on the rack
means:
"I will use again."

A towel on
the floor means:
**"Please
replace."**

THANK YOU
for helping us to
conserve Florida's
vital resources.

**Florida
GREEN
Lodging**

An underwater photograph of a clear, turquoise body of water. In the upper center, a pink circle highlights a small, dark fish swimming. The water is slightly rippled, and there are some green and brown plants visible on the left side. The overall scene is bright and clear.

Safeguarding the state's water resources – including rivers, lakes, wetlands and springs – is a top priority for the Florida Department of Environmental Protection.

Abundant freshwater supplies are essential for Florida's communities, its economy and the natural environment. To learn how Florida is improving water quality and quantity and how you can help, visit **ProtectingFloridaTogether.gov**.

To see some of the places and creatures your conservation efforts protect, visit any of Florida's 175 state parks and 42 aquatic preserves.
