

RTP FY2022-2023 Application Cycle Webinar
Questions and Answers

Question	Answer
Project must be located on greenway or trail, then this excludes beaches correct? Our municipality is renovating a boardwalk and 2 pavilions at one of our beach parks. I assume we are not eligible because of the park location.	Project location is not restricted. Projects can receive points if connected to a designated greenway or trail. Beach trails are not excluded however please send your conceptual site plan so that we may review.
Is there a minimum width for a recreational trail?	We don't have a minimum width but it depends on what type of project you are proposing. Of course, building codes must be followed.
Can we submit an application for the same project for which we submitted a FRDAP application in order to maximize our chances for funding? Obviously, we would only accept one grant, if they both were to be awarded.	Unfortunately, not. If you already submitted a FRDAP application for the project and are awaiting funding consideration by the Legislature, you cannot submit the application again in the RTP cycle.
Are the letters from the trail interest groups just for education projects? In the application it refers to education project	Yes, just education projects.
What type of use is considered "motorized?"	From our rule definition, "Motorized Trail" means a trail specifically for off-road recreational motorized vehicular activities, including all-terrain vehicle riding, motorcycling, use of off-road light trucks, e-bikes, or other off-road motorized vehicles.
<p>Hello, I would like to ask a question - if a restroom along a park trail needs renovation/expansion which includes sewer connection; would this be an eligible project?</p> <p>We will include re-rubberizing the trail/walkway around the park leading to the restroom.</p>	<p>Does the project include any other facilities/elements to be constructed or renovated?</p> <p>This would more than likely be a viable RTP project, but we would ask that you forward your conceptual site plan for us to review.</p>
What constitutes "fitness activities" for nonmotorized trail use?	This can include installation of fitness equipment along the trail.
We did a community survey regarding all City parks including specific questions regarding our proposed trail project. Would this count as a project-specific survey?	If you can pinpoint and highlight the specific questions regarding the proposed trail project, then yes, it would count.

Questions and Answers

<p>Would picnic tables qualify as an eligible entity?</p>	<p>Yes, they are considered eligible elements/facilities but they must directly support the trail. In the webinar slides, picnic tables are re-worded as covered pavilion or shade shelter with seating.</p>
<p>Would a planning commission qualify as a planning and zoning advisory board?</p>	<p>No, planning commission would not qualify as a planning and zoning advisory board.</p>
<p>Are parking areas and kayak launches acceptable expenses?</p>	<p>Yes, they are eligible but have to support a land or water trail.</p>
<p>Hi! I'm wondering whether we should create attachments for items that don't apply to us. For example, if we did not discuss the issue at a regularly scheduled meeting (N2), do we still create a sheet stating N2 does not apply, or do we simply put in an N1 and N3 attachments, skipping N2?</p>	<p>If you don't have a response for a specific attachment, we would just ask that you label "N2" - N/A. We want to be sure that we didn't overlook something you are requesting. Also, if you indicate a response if your application for a specific question but don't include the exhibit, then points cannot be awarded.</p>
<p>Can you provide some examples of innovative techniques for non-motorized trails to address potential user conflicts?</p>	<p>Innovative techniques can include bollards or path lanes to differentiate between the types of use. Please let us know if you had a specific method you would like us to review.</p>
<p>Is a disc golf course considered a recreational trail?</p>	<p>We are open to considering it. We would ask you provide us with a conceptual site plan to review.</p>
