

FLORIDA ENVIRONMENTAL PUBLIC HEALTH TRACKING

**SEPTEMBER 13, 2023
10:00 AM ET**

What percent of residents in my county live within walking distance to a park? Is it safe to swim during red tide? How can I recognize heat stroke when I'm hiking this summer?

Environmental Public Health Tracking, a program of the Florida Department of Health, is joining us this month to share the multitude of information and resources they offer surrounding health and the outdoors.
