The St. Joe Company Ecosystem Management Agreement and SAJ-RGP-86 Annual Report 2010

SUMMARY

No authorizations were sought during 2010.

This report contains the project and sub-basin ledgers for all project authorizations issued through 2010. Devils Swamp Mitigation Bank Ledger and Breakfast Point Mitigation Bank Ledger are also included in this report.

2010 Projects

APPROVED PROJECTS

No authorizations were sought or issued during 2010.

2010 Project Ledger

The Overall Projects ledger (Figure 1) reflects all projects for which final authorizations have been granted, as of December 31, 2010. Through calendar year 2010, a total of 21 projects have received authorization within the SAJ-86 / EMA areas. While the majority of these projects have been completed, impacts authorized for West Bay Landings, Pier Park NW Hotel, Pier Park Northeast Commercial Project, West Bay Fire Station, and Pier Park Loop Road have not yet been initiated. Counting all impacts authorized through 2010, the Southwest West Bay sub-basin received 3.62% of low quality wetland impacts to date (2004 – 2010). To date, the Highway 98 sub-basin has received 2.69% of low quality wetland impacts. The Phillips Inlet sub-basin has received 2.83% of total low quality wetland impacts to date. The Direct Runoff to Bay sub-basin has received 0.21% of total low quality wetland impacts through 2010.

The developable area (totals of all sub-basins, minus conservation units) total of low quality wetlands is now 6,837.10 acres. The developable area total of high quality wetlands is now 3,751.76 acres.

2010 Conservation Easements

Conservation easements required for areas within the Southwest West Bay Conservation Unit and South American Swamp Conservation Unit are in process. They will be sent to both the Corps and FDEP for their review. Within 30 days of Corps and FDEP approval they will be recorded in Bay County, FL. Based on the EMA total possible developable acreage figure of 8,799 and total conservation unit acreage of 13,193, the ratio to maintain balance in the RGP-EMA area should be 1.5 acres of recorded conservation unit conservation easement for every 1 acre of project area. Currently, with 3,969.25 acres of recorded conservation unit conservation easement and 1,871.25 project acres, the ratio is over-balance in favor of conservation unit acreage at 2.12 : 1.

Conservation Unit	Ownership	Conservation Easements	
		Recorded Acres	In Process Acres
Cypress & Wet Pine Flats	Panama City Beach	2,912.40	0
Lake Powell Headwater	St. Joe	106.10	0
South American Swamp	St. Joe	14.50	32.49
Southwest West Bay	St. Joe	208.47	1.49
Ward Creek	NFWFMD	727.78	0
Total Acres		3,969.25	33.96

Mitigation and Banks

MITIGATION BANKS 2010

Required mechanical and prescribed fire operations were undertaken as directed by the mitigation banking instruments (MBI) for Breakfast Point and Devils Swamp Mitigation Banks. At Breakfast Point, canopy reduction for Phase II was completed. The southwest portion of Phase I was managed with a prescribed burn, and over 75% of Phase II was subject to a successful prescribed burn during 2010. Removal of feral hogs from the Breakfast Point Mitigation Bank continued during 2010. No credits were released from Breakfast Point Mitigation Bank during 2010.

At Devils Swamp Mitigation Bank, a prescribed burn was conducted during 2010 within Phase I covering all of the prescribed burn blocks in Phase I (100%). No credits were released from Devils Swamp Mitigation Bank during 2010.

Mitigation and Banks

OTHER MITIGATION 2010

During 2010, required management activities continued within designated Conservation Units. Specifically, portions of the Southwest West Bay, South American Swamp, and Lake Powell Headwaters Conservation Units. The Lake Powell Headwaters mitigation area was burned in 2009 and is slated for another prescribed burn in 2011. The South American Swamp and Southwest West Bay mitigation areas were burned in 2008 and are also slated for a prescribed burn in 2011.
