

## LWCF PROJECT BOUNDARY MAP REQUIREMENTS

1. Submit three (3) dated project boundary maps which clearly delineates the project area (map must be no larger than 11 X 17).
2. The project boundary map and/or attachments must identify the following:
  - The title of the project, official park name, location and LWCF project number.
  - The date of map preparation.
  - The area(s) under lease and term remaining on the lease(s).
  - All known outstanding rights and interests in the area held by others. Known easements, deed/lease restrictions, reversionary interests, etc. are to be included.
  - The project area in sufficient detail so as to be legally sufficient to identify the lands to be afforded protection under the LWCF program. The following methods of identification are acceptable:

Deed references

Adjoining  
ownerships

Adjoining easements of record and right-of-ways  
Public streets and entrances surrounding the park  
Adjoining water bodies or other natural landmarks  
Metes and bounds  
Government survey

Where one or more of the above methods are not readily suited for boundary identification, measurements from permanent locators must be used.

3. The project boundary map should also be signed and sealed by a professional surveyor and mapper licensed under provisions of Chapter 472, F.S. and provide the legal description.
